

AIR COMMANDO COURSE:

MISSION – The Air Commando Course’s goal is to develop “Battle Ready” Airmen capable of deploying anywhere around in support of SOF operations throughout the world. By utilizing a robust syllabus, the ACC program prepares students for difficult and potentially dangerous support missions in austere environments.

COURSE BREAKDOWN – ACC is conducted in-residence at the 371 Special Operations Combat Training Squadron (SOCTS), Hurlburt Field, FL. There are six modules of instruction designed to prepare students for possible combat situations which may occur in a deployed environment setting. Each module is structured to be inter-related with each other in order to provide the essential building blocks for student success.

STUDENT STATUS – Due to the nature of the ACC program (varied AFSCs), the 371st SOCTS does not retain administrative student status for student assigned to attend ACC unlike most traditional training units. Administrative control of students remains with the students’ owning unit.

DISENROLLMENT POLICY– The 371 SOCTS/CC, with recommendations from the Director of Operations, will make disenrollment decisions. Disenrollment criteria may include, but is not limited to:

- A.** Missing two training events or more.
- B.** Failure of block examination test and retest
- C.** Sustained medical injury before or during the course
- D.** Failure to meet training standards. This may be characterized by the inability to grasp or demonstrate the safe application of course material, or the inability/unwillingness to adapt to the Combat Aviation Advisor standards
- E.** Demonstration of unacceptable/unlawful behavior, leadership or management commensurate with rank.
